MEMORANDUM FOR: Special Assistant for Vietnamese Affairs

SUBJECT: Priority on Two Vietnam Map Projects

1. As you probably know, we have been concentrating on the production of maps on the whole Indochina area. Numerous special maps have been produced as well as two "Atlases". The most recent was the Provincial Atlas of South Vietnam in two versions, both especially for the field.

2. Regarding the two map projects currently underway, the Cartography Division, OBI, reports that each is approximately 50% completed and expects to have printed copies by the first week of October. Both projects have been and will continue to have the full time attention of at least two persons. Approximately 50 maps are involved.

3. I appreciate the support you have given these projects and please be assured they will be completed as promptly as practical.
